

EdiPax and the Pax Software Family; E-mail: info@edipax.com - <http://www.edipax.com>

Net-CDB - Management Summary

EdiPax Net-CDB has been designed to meet EAN Belgilux CDB client application requirements (refer to <http://www.eanbelgilux.be>). Use it to:

- Create and update well-formed CDB price catalogues
- Email catalogues to partners and customers
- Produce and print price catalogues
- Share catalogues through your intranet and publish catalogues on the WWW
 - Archive and compare catalogues - compare prices
 - Search and browse catalogue items
 - Customise form, printouts, lists ... (CSS and pictures editors)
 - Utilities : check syntax, validate items,... powerful tools at programmer service
 - Requirement : IE5, ASP/Microsoft IIS 5.0 - can be installed on NT4 SP6a, Windows 2000 or XP workstation or server

Net-CDB - Data Storage, architecture

This application is a "Net Application" (distributed and object). It can be used 100% locally (shares), 100% internet (intranet) or mixed, part on the WWW part locally. You may open 4 data window types

- Item: browse, edit single GTIN product information
- List: browse, edit all GTIN contained in a table (SQL connectivity - Default is MSAccess, SQL server or Oracle as option)
 - List: browse, edit all GTIN contained in a PRICAT (EDIFACT connectivity)
 - Tree: create, update the price catalogue tree - drag drop items from "list" windows

All windows are independent. You may choose to open several windows from each class, on 1 or several local machine, shares, intranet or internet sites.

Net-CDB - Browse, print any CDB catalogue

Double click a file and browse/print any price catalogue you sent, received or archived. Compatible with Outlook, Outlook Express, Explorer, Netscape products,...
